Beaux Gestes-Laurence Wylie 2014-08-16 Laurence Wylie (1919-1995), a renowned scholar and teacher of French at Harvard, assembled this collection of French conventional gestures after studying at the Jacques Lecoq school of mime in Paris. The more than 60 photographs of him portraying the gestures are not only a delightful introduction to French “body talk” but also a stimulating insight into French culture and an excellent way to engage students of French. The Advanced Reasoning Forum is pleased to make available again this charming book first published in 1977.

Conventional Gestures-Richard L Epstein 2018-11-05 Conventional gestures are those movements we make, such as waving hello and shaking hands, that are part of a learned, shared, symbolic system. In this book Richard L. Epstein working with the illustrator Alex Raffi examines how such gestures mean and how we can study them. Drawing on their collection of over 400 American gestures, available on the Advanced Reasoning Forum website, they examine problems of methodology and the nature of gestures in relation to the work of others who have studied and collected gestures from various cultures. An extensive annotated bibliography describes and comments on virtually all known collections of conventional gestures.

Networked Art-Craig J. Saper 2001 The experimental art and poetry of the last half of the twentieth century offers a glimpse of the emerging networked culture that electronic devices will make omnipresent. Craig J. Saper demarcates this new genre of networked art, which uses the trappings of bureaucratic systems - money, logos, corporate names, stamps - to create intimate situations among the participants. Saper explains how this genre developed from post-World War II conceptual art, including periodicals as artworks in themselves; lettrist, concrete, and process poetry; Bauhaus versus COBRA; Fluxus publications, kits, and machines; mail art and on-sendings. The encyclopedic scope of the book includes discussions of artists from J. Beuys to J. S. G. Boggs, and Bauhaus's Max Bill to Anna Freud Banana. -- Publisher.

Modality and Structure in Signed and Spoken Languages-Texas Linguistics Society. Conference 2002-10-24 Publisher Description Semiotica- 1996
The Semiotics of French Gestures-Geneviève Calbris 1990 Everyone gestures while speaking, in a specific and generally unconscious manner. What are the functions of gestures? What relationship do they have to speech? How do gestures work to create meaning? In this valuable book, Geneviève Calbris undertakes to answer those questions. Based on the author's own extensive experimental research, The Semiotics of French Gestures presents a systematic description and a detailed semiotic analysis of French gestures.

The book aims to establish a structural semantics of the set of gestures and facial expressions that accompany or replace spoken language. As this book demonstrates, the study of gesturing is indispensable to a full understanding of a foreign language and its use in real-life situations. The Semiotics of French Gestures will be a valuable source for scholars and students of communication, semiotics, linguistics, and languages.
